

VLCM's Virtual CISO (vCISO) Services

Expert Cybersecurity Leadership for Financial Institutions

Why Financial Institutions Choose Us

Financial institutions face intense regulatory scrutiny, evolving cyber threats, and increasing pressure to protect customer data. Hiring a full-time CISO can be costly and time consuming. VLCM's vCISO services provide immediate access to executive level cybersecurity leadership, custom tailored for the financial sector, without the cost of hiring a full-time CISO.

Key Benefits of Our vCISO Services

- **Industry-Specific Experience:** We understand financial regulations, compliance challenges, and risk management in banking, credit unions, investment firms, and fintech.
- **Regulatory Confidence:** Stay ahead of audits and regulatory updates. We help maintain compliance with GLBA, PCI-DSS, SOX, FFIEC, NYDFS, and more.
- **Cost-Effective Expertise:** Get a dedicated cybersecurity expert at a fraction of the cost of a full-time CISO.
- **Immediate Impact:** From gap assessments to policy development, we deliver fast, measurable results.
- **Strategic Alignment:** We align your security program with business goals, protecting your brand, assets, and customer trust.

Expertise You Can Trust

VLCM's team of certified professionals brings decades of experience in cybersecurity strategy, compliance, and operations. We act as an extension of your executive team ensuring cybersecurity is a business enabler, not just an IT concern.
